Dear Sir/Madam,

I was part of the Lambeth Detached team that occupied the Old Library Centre in Knights Hill, West Norwood, from Sep 2005 - July 2006, The Ground floor was occupied by an Organization referred to as The Virtual School, run by Mr Brian Johnson.

Brian appeared to have a very positive impact on what appeared to be some very difficult students, they seemed to interact well, from my position as a very frequent user of the building I could tell that all the students liked and admired Brian,

As a fellow member of

staff, I can honestly say me and Brian shared many conversations and I found him to be genuine and honest.

We never had a cross word and he was down to earth practical and ran the centre with a very professional attitude, His outlook was bright and all his students admired and respect him.

Brian will be missed by the Lambeth Education service and I truly wish him the best for his future,

ANTHONY HARRIS
